

Award winning EV's.

Innovative Blade Battery

The world's safest EV battery. Our revolutionary Blade Battery is a patented BYD technology — ultra-safe, long-lasting, and rigorously tested for performance and thermal stability.

Electric & Super Hybrid Vehicles

Whether you're ready to go fully electric or want the flexibility of a long-range super hybrid, BYD has a vehicle to suit your lifestyle. All packed with smart features, designed for the future.

Designed with Sustainability in Mind

Our global mission. Built for those who care about the planet, BYD vehicles help reduce emissions without compromising on performance or style.

COOL THE EARTH BY ONE DEGREE
TECHNOLOGY GREEN FUTURE

Meet the range—vehicles to suit your lifestyle.

DOLPHIN ELECTRIC

Range Up to 427km

kWh Up to 60kWh

Features Blade battery, fast charging, V2L

ATTO 3 ELECTRIC

Range Up to 420km

kWh Up to 60kWh

Features Blade battery, fast charging, V2L

SEAL ELECTRIC

Range Up to 570km

kWh Up to 83kWh

Features Blade battery, fast charging, V2L

SEALION 6 SUPER HYBRID

Range Up to 140km EV | 1100km Combined

Fuel Economy 0.8/100km

Features Blade battery, fast charging, V2L
